KASCO GRADE-N-SEED PATENT APPLIED
Multi-Purpose Tool

Varied components allow user to clear debris, backfill, finish grade, and seed...
ALL WITH ONLY ONE TOOL!

Leaves an excellent seedbed, ideal for germination
KASCO GRADE-n-SEED

ALLOWS YOU TO PERFORM MULTIPLE FUNCTIONS WITH ONLY ONE TOOL!

Manual adjustment option available for tractors without hydraulic outlets

Ground Driven Seeder

Two rows of Replaceable “Dirt Worker” teeth on 6-in spacing for loosening soil

Heavy Cast Press Wheels for Excellent Soil/Seed Contact

THREE CHOICES AVAILABLE FOR CENTER OPTION!

LANDSCAPE RAKE FOR DEBRIS REMOVAL, LEVELING, AND BACKFILLING

DISC BLADES FOR OVERSEEDING

THIRD ROW OF “DIRT WORKER” TEETH FOR EXTRA SCARIFYING

KASCO
MANUFACTURING CO., INC.
KASCO KRIMPERS
Mulch/Soil Stabilization Tools

Heavy-duty units available in either 6’ or 8’ widths, 3-point or pull-type. Ideal for Rental or Roadside/Construction use.

6’ Standard-duty units are ideal for landscapers.

16" Straight Coulter 3 slice the ground, followed by 13" Concave Openers to form a Seedbed Trench.

**A Three-Speed Transmission and Precise Adjustment of the Seed Metering Slots Allow a Wide Range of Seed Rates.**

The Gear Box is Easily Accessible for Quick Changes.

**A Full Row of Heavy Duty Cultipacker Wheels follow up to ensure premium Seed-to-Soil Contact.**
Ideal for use behind ATVs or smaller tractors, THE VERSA-DRILL offers unique “Walking Beam” engineering. This design allows the Drill to follow the terrain, even the most uneven, rocky, no-till conditions.

All of the VERSA-DRILL’s ground-engaging components are rolling; there are no shanks to drag trash.

A True No-Till Drill, the VERSA-DRILL ensures better placement of expensive seed, rather than scattered on top like a conventional drop seeder.

LESS SEED WASTE and BETTER GERMINATION.

Idea for Erosion Control
The growing trend towards use of Native (Warm Season) Grasses has created a demand for a quality drill to ensure germination of this expensive seed.

Our optional POSITIVE FEED SEED DELIVERY SYSTEM (patent pending) allows even distribution of "fluffy" prairie grass seed.
- Bluestem
- Indian grass
- Side Oats Grama

PULL HITCH
The Eco-Drill is now available with an optional Pull Hitch Package.

LEGUME BOX
Our optional Legume Box allows uniform allocation of two different sized seeds at the same time.

Adding Versatility and Value
Produce BIG BUCKS without Investing Big Bucks!

The Most Versatile Implement of its Kind on the Market, the PLOTTERS' CHOICE offers you more seeding options:

- Attach the Seed Drop Tubes to the Baffle Chute for use as a Broadcast Seeder when planting Grasses
- Attach the Seed Drop Tubes to the Opening Shoes for use as a No-Till Drill when planting Row Crops such as Corn

Switch Between Broadcast Seeding and Drilling in a Matter of Minutes.

Kasco's Unique Seed-Metering System allows the Main Seed Box to handle a wide variety of seed sizes.

All of the PLOTTERS' CHOICE Ground-Engaging Components are Rolling; There are no Shanks to Drag Trash.

Grade-N-Seed

Kasco’s Multipurpose Tool, THE GRADE-N-SEED, allows you to do it all, with one tool!

With its unique design, this implement offers:
- Scarifier Teeth
- A Landscape Rake
- Disk Blades for Overseeding
- A 4-bushel Seedbox with Agitator
- Heavy Duty Cultipacker Wheels

Go from sod to seedbed, with THE GRADE-N-SEED.

LANDSCAPERS’ CHOICE

- Innovative Primary Grass Seeder for Prepared Seedbeds
  - 5-Foot or 6-Foot 3-Point Implement
  - Prepares the soil with pivoting “Walking Beam” double row of cultipacker wheels
  - Seed Chute distributes seed evenly across entire width of the implement
  - Versatile metering system can handle a wide range of seed sizes & types
  - Paddle type seed agitator is standard
  - Changing seeding rates is a simple handle adjustment
  - Ground driven metering system is consistent and stops seed flow when implement is stopped
THE VARI-SLICE

- For overseeding (slit seeding) or minimum till seeding of yards, pastures, or food plots
- Available as a 5-ft or 6-ft, 3-point, or a 4-ft, pull-type or 3-point unit
- 16" straight coulters are on adjustable angle disc gang, allowing the blades to open the trench for the seed
- Coulters are available on either 3" or 4" spacing
- Seed chute distributes the seed evenly across the width of the implement
- Versatile metering system can handle a wide range of seed sizes

The Seed-N-Pack

- Excellent for seeding of pastures or food plots
- Available as a 6-ft 3-point unit
- Ideal drop seeder for prepared seedbeds (tilled or disked)
- Seed chute distributes seed evenly across entire width of the implement
- Versatile metering system can handle a wide variety of seed sizes... from clover to corn... with simple handle adjustment
- Ground driven metering system is consistent and stops seed flow when the implement is stopped
### THE KULTIPACKER

The VALU-DRILL

For Those Who Want a Simple, Rugged Drill with Extra Value!

- Uses the Same Proven Metering System as our Other Drills
- Heavy 3x3 Tube Welded Frame
- 14" Heavy Duty Openers with Oversized Bearings
- Openers and Cultipackers are Spring-Loaded
- Close-Coupled so It's Easier to Lift
- Simple & Easy Depth Control
- Can be used in either No-Till or Tilled Soil

170 West 600 North
Shelbyville, IN 46176
800-458-9129
www.kascomfg.com
All of the openers and the cultipackers are spring loaded. Depth Control is quick & easy.

The Seed Metering System of the Valu-Drill is driven by the rear cultipacker wheels.
SEEDING SOLUTIONS by KASCO

THE VARI-SLICE....
The most Versatile Overseeder on the Market

No Matter what Your Seeding Application:

- Golf Courses
- Sports Turf
- Pasture Overseeding
- New Construction
- Roadside Work
- Food Plots
- Rental Applications

The Vari-Slice is The Solution.

Kasco’s Vari-Slice offers precision seed placement and seed-to-soil contact, ensuring excellent germination in existing stands of grass or in new turf applications.

Our unique design lets you easily vary the width of the seed groove by adjusting the disc angle.

KASCO MANUFACTURING CO., INC.
