Winter enclosure is not for mowing or turf care applications. Heater available on liquid-cooled models.

MidMount™ FrontMount™

Grasshopper True ZeroTurn™ Mowers

FrontMount™ and MidMount™ Grounds Maintenance Solutions

Remember to adjust depth/width of back cover to allow for automated face/foot trim.
Nothing Knows Turf Like a Grasshopper

No matter where you mow, there’s a Grasshopper True ZeroTurn™ mower that’s perfect for the jobs you handle every day. You’ll make quick work of wide open areas and zip in and out of tight spaces you thought only a walk-behind could reach, thanks to precise, responsive control of zero-turn maneuverability — all the time knowing that your Grasshopper will keep delivering the same manicured cuts, minimal maintenance and powerful performance for years to come.

When we say a Grasshopper mower could be the last mower you’ll ever need, we mean it. Because every mower is built to last, with commercial-grade features you simply won’t find on other mowers. Just test driving a Grasshopper mower will be enough to convince you how maneuverable, efficient and comfortable a mower can be. Our engineers understand what it takes to stay alert and in control — all day if necessary — and still step off feeling fresh and energized, and they translate that understanding into features that make mowing easier and more fun than you ever thought possible. So stepping onto your Grasshopper mower will be something you look forward to.

Longest-Lasting Mowers in Their Class.

Grasshopper FrontMount™ and MidMount™ zero-turn mowers are built with commercial-grade features you won’t find in most mowing equipment. When considering your next mower, look for features such as:

- Sentry™ spindle guards protect bearings from debris
- Fused, automotive-style circuits
- Service-friendly design for ease of maintenance
- Kevlar-type belts for extended belt life
- ¼-inch-thick MARBAIN® steel blades for longer blade life
- 5-bolt wheel pattern to handle side loads and curb shocks
- 8-inch spindle flanges with 6-bolt pattern for added strength
- Anvil-edge deck design protects the leading edge
- Dustproof fork bearings to seal out contaminants
- 5.5-inch-deep decks for superior airflow*
- Double-laminate deck top across entire width of deck

As a result, your FrontMount™ or MidMount™ mower will work harder, last longer and deliver dependable performance season after season. It will still be delivering carpet-like cuts, while retaining its value as a re-sellable asset when you do decide to trade it in for a new Grasshopper mower.

*4.5-inch on 48-inch FrontMount™ decks.

Models may be shown with optional equipment. **48-inch FrontMount™ decks.**
Stay focused, alert and comfortable throughout the speed range and be more productive, efficient and profitable. The ergonomic design, smooth vibration-free ride and premium seat reduce fatigue and dissipate jolts and jostles on uneven ground. And if you have crews mowing, the dramatic increase in productivity and reductions in employee turnover, absenteeism and workers’ compensation claims can have a big impact on your business.
METAL WHERE IT MATTERS
A robotically welded, high-grade steel exoskeletal™ frame and formed steel I-beam reinforcement provide rugged durability without excess weight for a lighter footprint.

HEAVY-DUTY TRANSMISSIONS
Hydrostatic transmissions used in Grasshopper mowers are built to strict specifications and design matched to the power unit to provide that smooth, intuitive feel that only Grasshopper delivers. The transmissions transfer more power to the cutting deck for quieter operation, longer service life and traction through turns for a better-quality cut.

BUILT TO TAKE IT
Aluminized steel fenders resist corrosion while lower debris ingestion guards shield internal components from harsh elements and the hazards of commercial mowing.

RELIABLE POWER THAT ENHANCES PERFORMANCE
Before any engine model is offered in a Grasshopper mower, it must pass thousands of hours of testing in all kinds of temperatures and mowing conditions. All mowers are designed to take maximum advantage of the engine’s power and deliver more of it to the cutting decks and implements. Engines are positioned at the rear of the power unit in order to provide a cooler environment for both the engine and the operator thanks to the front-to-rear airflow. Fit your operation with choices of V-twin, 3-cylinder, air- or liquid-cooled, gasoline or diesel OHV engines that deliver dependable power at every start.

LESS MAINTENANCE MEANS MORE “UPTIME,” LESS “DOWNTIME”
Mechanics say you’ll spend less time on maintenance and more time getting the job done. With fewer grease points and easier access to belts and filters, it’s easy to keep your mower in peak condition.

» Extended service intervals. With its rugged design and fine-particle filtration system, you’ll run your mower up to 1,000 hours between transmission oil changes — more than three times longer than other mowers.

» Cleaner, cooler operation. High-efficiency, fine-particle filtration protects the transmission while an auxiliary cooling fan on each transmission pump extends service intervals and transmission life.

SERVICE-FRIENDLY ENGINES
Horizontal crankshaft engines are accessible and offer rear access to the clutch and a cleaner environment for extended service life.

CLEANING IS A BREEZE
A clean radiator protects your engine from overheating. A removable debris screen on liquid-cooled models simplifies cleaning. An optional cleaning wand uses water pressure to dislodge debris without damaging radiator fins.

REDUCE COSTS — TO AS LOW AS 7 CENTS PER HOUR
Design-matched pump-and-wheel-motor drive systems run cooler to extend service life. Using genuine Grasshopper fluid and filters keeps costs as low as 7 cents per hour.

Simplified Service
Access belts and grease points quickly and easily, thanks to our Access-Eze™ design.

WITH ONLY FIVE LUBRICATION POINTS ON MIDMOUNT™ MODELS AND FEWER THAN 10 ON FRONTMOUNT™ MODELS, YOU’LL SIGNIFICANTLY REDUCE THE TIME YOU SPEND ON MAINTENANCE.

CUT MAINTENANCE
80% OF MAINTENANCE TIME

Count on flawless performance, even after years of use, because the strength is built in where it counts most. Rugged engines provide reliable power that handles the toughest applications. Add to that a lower-maintenance design, and you’ve got a mower that lasts, too.

BUILT TO LAST
SEASON AFTER SEASON

Count on flawless performance, even after years of use, because the strength is built in where it counts most. Rugged engines provide reliable power that handles the toughest applications. Add to that a lower-maintenance design, and you’ve got a mower that lasts, too.

**THE INDUSTRY’S TOUGHEST SPINDLES**

1. Massive 8-inch spindle flanges anchored in a 6-bolt pattern spread the force of impact for greater strength in tough mowing applications.

2. Double-layered, formed steel spindle plane is nearly 1-inch thick in stress zones.

3. Sentry™ spindle guards shield the spindle housing and seal lower bearings from fiber wrap, fishing line and plastic bags, as well as dirt ingestion.

4. Non-greasable double bearings are designed for high rotational speeds and minimal maintenance, and keep out dirt and moisture without the need for oversized spindles.

5. Split-steel pulleys are stronger than cast iron or stamped pulleys for exceptional durability to withstand wear and prolong belt life.

---

**A CHOICE OF BLADES FOR THE BEST CUT**

GrassMax™ blades are specially designed to create the airflow needed for a precision cut in a wide variety of conditions. Six types of GrassMax™ MARBAIN® blades are ¼-inch thick and hold their edge longer, delivering a better cut and twice the life of aftermarket blades. High-Lift Notched blades are available with LaserEdge™ technology as an option and require little or no sharpening for the blade life.

**ONE DECK**

**THREE WAYS TO HANDLE CLIPPINGS**

Grasshopper cutting decks are designed to let you change the way you mow without changing decks. Easily convert the same deck from standard side discharge to optional PowerVac™ collection or Down Discharge™ mulching. Dedicated rear discharge decks are also available. See pages 11 and 13 for details.

---

**OPTIONAL SIDE DISCHARGE CONTROL KIT**

Raise the discharge chute out of the way while simultaneously closing the deck to avoid putting clippings in flower beds or onto sidewalks. Open position lowers discharge chute for regular side discharge operation.

---

**OPTIONAL ROLLER KIT**

Available for 52-inch decks or larger, vertical rollers speed close trimming near buildings, chain link fences and landscaping.

---

**MAKE SURE YOU HAVE GENUINE GRASSMAX™ BLADES!**

Look for the Grasshopper logo and part number on the blade.
**EASY HEIGHT CONTROL**

QuikAjust™ DropPin™ height adjustment raises and lowers the deck with one foot for precision cutting heights from 1 to 5 inches in ¼-inch increments. Electric height adjustment available for 200 and 300 Series models. Hydraulic height adjustment (standard on 400 Series mowers) is also available for liquid-cooled 300 Series mowers equipped with 61- or 72-inch decks.

**TERRAIN-HUGGING COMFORT**

A single-fill fuel tank lowers the center of gravity compared to other mowers, providing more traction and stability for an enhanced ride.

**STANDARD BUMPER**

Protects the rear of your mower while preserving easy access and removal of the rear service shield.

**DEDICATED REAR DISCHARGE**

The unique, four-spindle design of the optional 4X Rear Discharge™ DuraMax® deck evenly distributes loads of clippings and eliminates windrowing while channeling material out the back and away from the operator and engine. Trim with either side of the deck — versus handheld trimming — for reduced costs.

**ALL-DAY COMFORT MULTI-POINT SUSPENSION™**

- Flexing, 3-piece SmartFrame™ provides smooth, shock-dampening operation.
- Strategically placed ISO mounts absorb and reduce vibration.
- Iso-mounted CoolTemp Cordura®-covered Premium seat and armrests with shock-absorbing footrest eliminates vibration.
- QuikAdjust Tilt™ levers (optional) provide more than nine inches of custom adjustment.

**200 SERIES**
- Air-cooled gasoline engine
- 747cc displacement
- 48-, 52- and 61-inch decks

**300 SERIES**
- Air-cooled and liquid-cooled gasoline and diesel engines
- 719cc to 993cc displacement
- 48-, 52-, 61- and 72-inch decks

**400 SERIES**
- Liquid-cooled gasoline and diesel engines
- 962cc to 1.3L displacement
- 61- and 72-inch decks

*Models may be shown with optional equipment.*
FRONTMOUNT™ MOWERS

A 3- to 6-wheel power unit with the cutting deck mounted forward of the engine and operator’s seat, utilizing 1 to 4 tail wheels. Combining True ZeroTurn™ maneuverability with a low-profile, outfront deck, Grasshopper FrontMount™ mowers make the most complex jobs quick and easy, increasing productivity.

OUTFRONT REACHABILITY

Low-profile, outfront decks reach under fences, shrubs and low-hanging trees to get into every nook and cranny with ease, trimming as you mow to virtually eliminate string trimming and save labor, fuel and time.

POWERFOLD® ELECTRIC DECK LIFT

Effortlessly lift FrontMount™ decks at the flip of a switch. PowerFold™ raises the deck to a near vertical position, providing easy access to the underside for simplified maintenance and space-saving portability. This feature also controls cutting height adjustments. Standard on all FrontMount™ decks.

DEDICATED REAR DISCHARGE

FrontMount™ rear discharge decks evenly distribute clippings out the back, channeling them away from sidewalks, flower beds, parking lots and gravestones without windowing.

RESPONSIVE CONTROL

Available on 600 and 700 Series models, our patented T-Drive™ hydrostatic transmission is coupled directly to the engine for exceptionally smooth and responsive control. The efficient design results in an uncluttered configuration under the seat for simplified routine maintenance.

MANICURED CUT

Low-profile DuraMax® decks offer superior airflow and follow the contours of the landscape independent of the power unit, delivering a smooth, carpetlike cut. MaxTrax® weight transfer system maintains traction on uneven terrain.

HYDRAULIC LIFT

An optional “on-the-go” hydraulic lift for 700 Series FrontMount™ tractors lifts the deck or implement off the ground to clear curbs, trailer ramps and more. Standard on 900 Series models.

Choose the FrontMount™ mower that best fits your application:

600 SERIES

- Aircooled gasoline engines
- 694cc displacement
- 48- and 52-inch decks

700 SERIES

- Aircooled and liquid-cooled gasoline and diesel engines
- 719cc to 993cc displacement
- 52-, 61- and 72-inch decks

900 SERIES

- Liquid-cooled gasoline and diesel engines
- 962cc to 1.3L displacement
- 52-, 61- and 72-inch decks

Models may be shown with optional equipment.

MAXTORQUE™ CLEAN DIESEL
POWER, PERFORMANCE, PRACTICALITY AND SUSTAINABILITY

Consider Grasshopper MaxTorque™ diesel mowers to meet your emissions goals while enjoying convenient, cost-effective power and performance. Handle the toughest jobs with minimal fuel use and maintenance, plus EPA Tier 4 Final emissions compliance. No power-robbing after treatment required.

MaxTorque™ takes clean diesel design to the next level, creating a power unit that channels all that torque into a quiet, comfortable ride with nimble handling, fast mowing speed and the superior quality of cut you expect from a Grasshopper.

See what others are saying about their MaxTorque™ diesel mowers at GrasshopperMowers.com/DieselStories.

THE DIFERENCE IS CLEAR.

Consider the benefits of clean diesel

COST-EFFECTIVE PERFORMANCE
Diesel fuel’s higher energy density delivers more efficiency without sacrificing power and torque. Compared to propane, diesel delivers over 50% more power per gallon equivalent.

MORE POWER, FEWER EMISSIONS
Clean diesel provides maximum power with fewer emissions in commercial and residential applications, creating lower levels of carbon monoxide and certain greenhouse gases than either propane or gasoline engines.

FUEL-EFFICIENT PRODUCTIVITY
Fuel savings and enhanced productivity more than offset the per gallon cost of diesel fuel versus others. In fact, you can save up to 650 gallons of fuel over 1,000 hours of use, and increase your potential for revenue.

TIER 4 FINAL EMISSIONS COMPLIANT

CHOOSE THE MODEL THAT’S RIGHT FOR YOU:

MidMount™
321D — 48-inch deck
325D — 52-, 61- and 72-inch decks
400D 1.3L — 61- and 72-inch decks

FrontMount™
721DT — 52-inch decks
725DT — 52-, 61- and 72-inch decks
900D 1.3L — 61- and 72-inch decks

Building on 60 years of airflow research, PowerVac™ Collection Systems are the most powerful and efficient vacuum collection systems available for turf, delivering professional, finished results that will turn your lawn into the showcase of the neighborhood. As the industry standard in collection technology, PowerVac™ ensures a clean sweep through wet grass, tall vegetation, tough weeds, dense leaves and other turf debris with one pass and no overlap.

Quiet, deck-driven systems move a high volume of air to carry virtually any type of debris through the collection tube without a loud, expensive auxiliary motor. A trash-shredding steel impeller compacts debris without clogging, so you can mow longer without emptying the collector.

POWERVAC™ COLLECTION SYSTEMS
A CLEAN SWEEP FOR A MANICURED APPEARANCE

GREATER CAPACITY
Metal hoppers offer maximum capacity for large-acreage applications and feature tapered bottoms to compact debris.

DON’T LEAVE THE SEAT
Power- and lever-actuated metal hoppers allow clippings and debris to be easily emptied from the operator’s seat.

ONE DECK DOES IT ALL
Grasshopper decks are designed to easily convert from standard side discharge to PowerVac™ collection, so there’s no need for a dedicated deck when collecting clippings. Just install the Quik-D-Tatch® Vac, connect your collector and go!

SIMPLE MONITORING
The 6-inch diameter, reinforced, transparent hose carries a large volume of debris, while a ClearView™ sight window lets you monitor till level.

SUPERIOR AIRFLOW
GrassMax™ medium-lift blades create perfect airflow to achieve a clean, manicured cut.

TURN ON A DIME
Rear-mounted collectors retain Grasshopper True ZeroTurn™ maneuverability, while six-point weight distribution on FrontMount™ models eliminates counterweight requirements for a lighter footprint.

POWERVAC™ SOLUTIONS

REINFORCED MESH BAGS
Reinforced 4-cu.-ft. capacity mesh bags in twin or triple configurations offer total capacities up to 12 cu. ft. Bags slide in and out for easy clippings disposal.

METAL HOPPERS
Metal hoppers offer capacities up to 25 cu. ft. and empty from the operator’s seat.

QUICK-D-TATCH®
Exclusive Quik-D-Tatch® Vac can be removed in seconds without tools.

PowerVac™ features six-point weight distribution on FrontMount™ models with no counterweight requirements, providing a lighter footprint while collecting.

HIGHLIFT™ 15B
Empty the 15-cu.-ft. Highlift™ 15B collector from the street or curb directly into truck beds, over trailer sidewalls or into any elevated space. Operators can raise the collector 72 inches and extend it back 34 inches from the operator’s seat to spread clippings and debris into the center of a truck bed.

Scan this code to view a video on the Highlift™ 15B.

Models may be shown with optional equipment.
COMMERCIAL-GRADE IMPLEMENTS
FOR YEAR-ROUND VERSATILITY

Attach your choice of implements to a Grasshopper FrontMount™ power unit to create a high-performance, integrated grounds maintenance system that doesn’t compromise on performance and retains zero-turn maneuverability. Horizontal crankshaft engines provide superior power transfer to implements, so you can count on powerful performance in all conditions. Best of all, there is only one engine to maintain compared to multiple single-purpose machines, reducing maintenance, labor and parts inventory.

QUICKCONVERTER™IMPLEMENT SYSTEM

Easily remove and connect decks and implements with our exclusive QuikConverter™ Implement System. With a two-point attachment system featuring two spring-loaded pins, you’ll easily equip your Grasshopper for any job in minutes without tools.

Watch a “no tools” implement installation.

EDGE-EZE™

Reduce edging time by up to 75% with Edge-Eze™, which maintains a clean, sharp edge along sidewalks, driveways and roadways to save you valuable time.

Learn more at grasshoppermower.com/edge

TURBINE BLOWER

The PTO-driven Turbine Blower takes advantage of True ZeroTurn™ maneuverability and powerful airflow to clean leaves and debris from congested or wide open areas while cutting time and labor by 50 to 75%.

Learn more at grasshoppermower.com/turbine

AERA-VATOR™ AERATOR

The powerful gyrations of the tines on the PTO-driven AERA-vator™ aerate and loosen compacted soil in ¼ the time and with ¼ the labor of walk-behind units, leaving no cores to clean up. Popular for sports fields because turf is ready for immediate use.

Learn more at grasshoppermower.com/aerate

DRIFT CONTROL SPRAYER

A productive and cost-effective way to apply liquid fertilizers, pesticides and herbicides. The Prolawn shielded sprayer applies small droplets that “stick” to vegetation, minimizing chemical use and reducing time and labor more than 60%.

Learn more at grasshoppermower.com/sprayer

LITTLE BULLY™ DOZER BLADES

Delivering surprising performance, these tough tools harness Grasshopper’s True ZeroTurn™ maneuverability to move loose dirt, sand, gravel or snow quickly and easily, saving time and labor.

Learn more at grasshoppermower.com/blades

CLEANSWEEP™ ROTARY BROOMS

PTO-driven rotary brooms sweep dirt and debris away in record time, making it ideal for sidewalks, parking lots — even walking paths and tracks. Powerful performance also cleans up to 8 inches of snow and reduces labor by more than 60%.

Learn more at grasshoppermower.com/brooms

TURF CARE TOOLS

Models may be shown with optional equipment.
POWERSFUL SNOW REMOVAL CLEAR A PATH TO WORK AND SCHOOL

Clear sidewalks, driveways and parking lots quickly and easily with no wasted motion, getting in and out of places you thought only a walk-behind could reach. Equipped with one of our powerful snow removal implements, you’ll create a complete, high-performance snow removal system that will deliver professional-grade performance season after season.

Short-coupled mounting to the power unit positions the weight of the implement onto the drive wheels for superior traction in snow.

ENHANCE VISIBILITY
A lower panel allows the operator to monitor implement operation.

POWERFUL SNOW REMOVAL IMPLEMENTS

CLEANSWEEP™ ROTARY BROOMS
Powerful PTO-driven 48- and 60-inch rotary brooms clear up to 8 inches of snow, leaving a clean, dry path. Fixed-angle and bidirectional models are available.

DRIFTBUSTER™ SNOW THROWERS
PTO-driven 48- and 60-inch snowthrowers propel snow up to 30 feet away while maintaining True ZeroTurn™ maneuverability. The discharge spout rotates a full 180 degrees for on-target placement.

LITTLE BULLY™ DOZER BLADES
These durable 48- and 60-inch blades are highly efficient at moving snow. Three styles are available. Operator’s seating position directly above the drive wheels enhances traction in deep, heavy snows.

V-PLow
Ideal for clearing sidewalks, the 60-inch V-plow pushes snow to both sides, clearing a path in one easy pass. It easily punches through snowdrifts and clears a lane through heavy snow.

SNOW PERFORMANCE PACKAGE
Includes a steering lever-mounted joystick that lifts the snowthrower and rotates the chute 180 degrees from the operator’s seat, or angles or lifts rotary brooms or dozer blades with ease.

PANTOGRAPH WIPER ARM KIT
Dual, parallel wipers clear more of the windshield for enhanced visibility.

STAY COZY
A 16,000 BTU heater is available for winter enclosures on liquid-cooled power units.

KEEP YOUR FEET WARM
Install a floor heater on liquid-cooled models and keep feet warm while working.

OPTIONAL BEACON LIGHT
Enjoy greater visibility with the addition of a yellow beacon light.

GET A GRIP
Benefit from enhanced traction on slippery surfaces with rugged tire chains. Designed for use with 20-inch turf tires.

SNOW PERFORMANCE PACKAGE
Includes a steering lever-mounted joystick that lifts the snowthrower and rotates the chute 180 degrees from the operator’s seat, or angles or lifts rotary brooms or dozer blades with ease.

OPTIONS FOR COMFORT AND PRODUCTIVITY

WINTER CAB
Fully enclosed Winter Cab features all-metal frame, sides and doors that seal out wind and moisture. Features include tempered-glass windows, front and rear LED lights and an electric windshield wiper for enhanced visibility. Requires counterweight.

For more information, visit ThrowMoreSnow.com | Models may be shown with optional equipment.
Be more productive with the addition of a PowerSmart Collection System or other attachments. Ask for specifications or visit grasshoppermowers.com/implementers. Models may be shown with optional equipment. Actual results may vary.
300 SERIES
AIR-COOLED MIDMOUNT™

Unparalleled power in the straightaways

Power, efficiency and economy – equipped with a heavy-duty, Vanguard Big Block or Kohler EFI engine, with horizontal crankshaft for longer performance life, giving you intense mowing power in a surprisingly compact design.

For enhanced efficiency, consider the 327 EFI with closed-loop electronic fuel injection. A wide range of benefits include decreased fuel use, reliable hot and cold weather starts, reduced engine exhaust emissions and fewer fuel-related service issues.

Robust, design-matched G1 hydrostatic transmissions with CoolAid™ hydrostatic pump cooling system and 7 micron absolute filter partnered with wheel motors create a fully hydraulic system for smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals.

Only five Access-Eze™ lubrication points cut maintenance time up to 80%.

A compact wheelbase provides a great power-to-size ratio for easy transport on trailers and through tighter spaces.

ComfortRide™ provides 2 inches of adjustment at the base of the lever for a custom steering fit. No tools required with Ratchet-Eze™.

Foot-controlled height adjustment pedal with pin eliminates fiber wrap. Spindle cones shield housing and lower bearings.

Sentry™ Spindle System, 2.5 cm (approx. 1 in.) O.D. shaft. Double levers that automatically return to neutral from either forward or reverse position.

Options and torques to towing through hydraulic transaxles. Two parking brakes, one for each drive wheel. See brochure.

Premium Comfort Seat

ULTIMATE OPERATOR STATION™

Console-Mounted Instruments

InFrame™ suspension with iso-mounted seat and footrest.

Wide-pattern side discharge, optional mulching or vacuum collection. The QuikAjust™ DropPin™ Height Adjustment makes cutting height change fast and simple.

Deep-cushioned Premium Comfort Seat featuring CoolTemp Cordura® with lumbar and coil-spring suspension provides all-day comfort. The adjustable cup holder makes it convenient to tote along your favorite beverage.

Electronic fuel gauge/hour meter on the console is standard.

A complete wheelbase provides a great power-to-size ratio for easy transport on trailers and through tighter spaces.

ComfortRide™ provides 2 inches of adjustment at the base of the lever for a custom steering fit. No tools required with Ratchet-Eze™.

The 12.0 g/4.5 l single-fuel tank lowers the center of gravity, providing more traction and stability for an enhanced ride. The standard bumper protects the rear of the mower while preserving easy access and removal of the service shield.

Optional four-spindle dedicated reardischarge decks evenly distribute clippings out back for a smooth cut and no windrowing to provide the quality cut you expect.

Mowing speeds up to 10.5 MPH and 6.8 mph, based on a 72” cutting width. For more details visit grasshoppermower.com/implements.

LIQUID-COoled 300 SERIES - SPECIFICATIONS

**Model:**

- **Cutting Width:**
  - 3010 Series: 329D 72”, 325D 61”, 321D 52”, 309D 48”

**Torque and Steering: Type**
- Designated G1 hydraulic system with auxiliary cooling fan, high-torque displacement and twin piston pumps and high torque

**Filtration/Hydro Fluid**
- Removes moisture, sludge & contaminants
- Fully withstands high and low temperature extremes for 1,000-hour fluid change intervals

**Transmission & Steering**
- Gear-driven, deck shaft and counter-rotating
- Twin speed, 16.9 kph forward

**Turning Radius**
- Four steerable, turn within own length with counter-rotating, independently powered drive wheels

**Steering**
- On or two-handled operator with available dual transaxle

**Breakers**
- Manual braking through hydrostatic transaxle

**Power Unit Tires Sizes**
- 23x9.50x12 turf

**Power Unit Tires Dimensions**
- 23x10.50x12 turf

**Blades Drive**
- Belt driven with simple belt. Fit where on/off nose triggering

**Cutting Height Range**
- 1.5 – 18.0 in. (38 – 46 cm)

**STARTER & ELECTRICAL SYSTEM**
- Maintenance-free Battery/Charging Capacity/Starters
  - 12 volt/14 amp/solenoid shift
  - 12 volt/40 amp/solenoid shift

**Interlock System**
- Prevents engine start when PTO clutch is engaged or steering levers are in drive position. Allows operator dismount without engine shutdown only when PTO is disengaged and steering levers are in neutral position.

**ULTIMATE OPERATOR STATION**
- Premium Comfort Seat
  - Honeycomb, high back, deep cushioned, hour-molded Cordura® covered, padded armrests, backrest with horizontal support, coil-sprung and upholstered ergonomic lumbar seat back and seat

**Operator Protection**
- ROPS

**Suspension**
- Inertial suspension with rearward and rearward

**Console-Mounted Instruments**
- Console-mounted instruments
- Includes electronic fuel gauge/hour meter on the side of the mower

**Fluid Change Intervals**
- 0.25 in. (6.35 mm) – with 7-gauge skirts for geometric strength. Spindle plane 0.313 in. (7.95 mm) thick – more than 25% thicker than the competition.

**Other**
- Quik-D-Tatch® PowerVac™
- DuraMax® deck

**Options**
- Quick-D-Tatch® PowerVac™
- DuraMax® Collection System
- Down Discharge® matching packages
- Dedicated 4-in Rear Discharge™
- Speed-Trimming™ heavy-duty roller (61 and 72”)
- True Disk® Roller (52”)
- Hydraulic height adjustment (61 and 72”)
- Electric height adjustment

**3010 SERIES LIQUID-COOLED MIDMOUNT™**

- Designed for fuel economy and extended service life for operating efficiency. Equipped with a tough Kubota gasoline or EPA Tier 4 Final-compliant diesel engine, so you can tackle even the toughest jobs with the greatest of ease. The engine is mounted with horizontal crankshaft for longer performance life.

- Robust, design-matched G1 hydraulic transmissions with CoolFan™ hydraulic pump cooling system and 7 micron absolute filter partnered with wheel motors create a fully hydraulic system for smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals.

- Only five Access-Eze™ lubrication points cut maintenance time up to 80%.

- A compact wheelbase provides a great power-to-size ratio for easy transport on trailers and through tighter spaces.

- 5-inch deep DuraMax® decks with an welded design for exceptional durability easily convert from wide-pattern side discharge to optional mulching or vacuum collection. The QuikAjust® DropPin™ Height Adjustment makes cutting height change fast and simple.

- Deep-cushioned Premium Comfort Seat featuring CoolTemp™ ComfortReach™ provides 2 inches of adjustment at the base of the lever for a custom steering fit. No tools required with RatchaEze™.

- The 12.0 gal / 45.4 L single-fill fuel tank lowers the center of gravity, providing smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals. A 12 volt/14 amp/solenoid shift transaxle provides on-demand power to the drive wheels.

- Robust, design-matched G2 hydrostatic transmissions with CoolFan™ auxiliary cooling fan, and auxiliary oil cooler creates a fully hydraulic system for smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals.

- ComfortReach™ provides 2 inches of adjustment at the base of the lever for a custom steering fit. No tools required with RatchaEze™.

**400 SERIES LIQUID-COOLED MIDMOUNT™**

Full featured top-of-the-line MidMount™ mowers

Fast and powerful to get the job done on time, every time. Enjoy the power and economy of a Tier 4 compliant, 1.3L Kubota 3-Cylinder MaxTorque™ clean diesel engine, or the brute strength of a heavy-duty KUBOTA 3-cylinder gasoline engine. Both feature a horizontal crankshaft for longer performance life, plus you’ll enjoy the comforts of delivering a picture-perfect cut in less time than you’d expect.

Rugged, design-matched 21cc GP hydraulic transmissions with CoolTec hydraulic pump cooling system and 7-micron absolute filter partnered with wheel motors create a fully hydraulic system for responsive steering and less maintenance with 1,000 hour fluid change intervals. Only five Access-Eze™ lubrication points cut maintenance time up to 80%.

Related to its power and size, the footprint is compact for transport on trailers and through tighter spaces.

5.5-inch deep DuraMax® decks with anvil-edged design for exceptional quality cut you expect. The standard bumper protects the rear of the mower while preserving easy access and removal of the service shield.

Optional four-spare, dedicated rear discharge decks evenly distribute clippings out back for a smooth cut without windrowing, providing the perfect cut you expect.

**400 D 1.3L**

OPTIONS

- Quick T-Touch® PowerVac® Collection Systems
- Down Discharge™ matching packages
- Speed-Trimming™ heavy-duty roller
- LED work lights
- Full-floating deck design
- Extended steering levers
- QuickFold™ steering levers with “No tool” 9 in. comfort range
- Big Boy wide-seat conversion kit
- Premier suspension seat
- Adjutable cup holder
- Bar tread, low-pressure tires
- Mutilator® 18" Tri-Wide™ Airless Tire Wheels
- QuickConvert™ implements
- Yellow bounces light
- Multiple tail wheel options
- Performance package including bar tread, low-pressure tires and wide stance single fork rail wheels
- 6 in 1 convertible (32 inch) deck, features PowerFold® and includes rear discharge
- QuickConvert™ implementation capability with wiring harness
- PowerFold® height adjustment switch on armrest
- Side Discharge Canopy (for OPS)
- Side discharge central kit
- Air Def Kit

A practical solution for your home or business, delivering the agile performance and quality cut only Grasshopper True ZeroTurn™ mowers can provide. Trim with your mower under shrubs and fences and enhance your precision cutting capabilities.

The horizontal crankshaft configuration adds performance life to the engine.

Design-matched TDrive™ hydraulic drive systems, with AntiVibe Power Platform®, direct more power to the cutting deck and eliminate vibration. The CoolFan® hydraulic pump and filter cooling system partner with wheel motors for smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals.

5.5-inch deep 52-inch Duramax™ decks, with anwelded edge for exceptional durability, and the 4.5-inch deep 48-inch decks easily convert from wide-pattern side discharge to optional mulching or vacuum collection. Or choose the 4 in 1 deck to add a rear-discharge option that evenly distributes clippings out back.

Change cutting height easily on the job with the flip of the PowerFold® switch. Use the same switch to electrically fold up the deck for storage and easy maintenance.

Deepchessoned Premium Comfort Seat featuring CoolTemp Cordura® with lumbar support and coil-spring suspension keeps the operator comfortable in control for all-day comfort.

ComfortReach™ provides 2 inches of adjustment at the base of the lever for a custom steering fit.

Quickly attach a wide range of seasonal implements with the exclusive QuickConverter™ Implement System to save time and labor on all your jobs.

Be more productive with the addition of a PowerVac™ Collection System or other implements. Ask for specifications or visit grasshoppermower.com/implements.

725 Series 72987 with 6.1-inch Durastar® deck

Be more productive with the addition of a PowerVibe® Collection System or other implements. Ask for specifics or visit grossmowers.com/implements. Models may be shown with optional equipment. Actual results may vary.
Designed for speed and durability, offering the powerful performance of a tough Kohler gasoline or EPA Tier 4 Final-compliant diesel engine to master a wide range of grounds maintenance jobs and give you more savings opportunities. DuraMax® decks up to 72 inches deliver a manicured cut and let you cover more ground in less time, while a complete line of efficient snow removal and turf renovation implements work together.

The horizontal crankshaft configuration adds performance life to the engine.

Design-match TD Lime plating® and Lime hydrostatic drive systems, both with AntiVibe Power Platform®, direct more power to the cutting deck and eliminate vibration. The CoolFan™ hydraulic pump and filter cooling system partner with wheel motors for smooth, responsive steering and less maintenance with 1,000-hour fluid change intervals.

5.5 inch deep DuraMax® decks with anodized lid for exceptional durability easily convert from wide-pattern side discharge to optional mulching or vertical collection. Or choose the 4-in-1 deck to add a rear-discharge option that easily distributes clippings out back. A dedicated rear-discharge deck is also available.

Change cutting height easily on the job with the flip of the PowerFold™ switch. Use the same switch to electrically fold up the deck for storage and easy maintenance.

Deepchassion Premium Comfort Seat featuring CoolTemp Coridoor® with lumbar support and isolating suspension keeps the operator comfortable in control for all day comfort. The 792 and 725DT feature an electronic fuel gauge/hour meter and two USB charging ports on the console, and an adjustable cup holder to make it convenient to tote along your favorite beverage.

QuickAjust™ steering levers with “no-tools” adjustment provide a 9-inch range for maximum comfort and fit.

Quickly attach a wide range of implements with the exclusive QuickConverter™ Implement System to save time and labor on all your jobs. Power units include standard wiring harness for electric-powered implements.

Potential specifications, features, and components may vary by model and model year. Please review the applicable specifications, options, and accessories available for your model before making a purchase decision. Always contact your local dealer for the latest information and details.

900 SERIES LIQUID-COOLED FRONTMOUNT™

The ultimate FrontMount™ performer

With more power, durability and maneuverability than any mower in its class, this unit is equipped with your choice of gasoline or fuel-efficient Tier 4-compliant clean diesel engines in a horizontal crankshaft configuration that enhances service life. Perfect for fleet operations, the 900 Series combines True ZeroTurn™ maneuverability with a quick cut and versatile performance. DuraMax® decks up to 72" inches deliver a manicured cut and lower your service budget in less time, while a complete line of efficient snow removal and turf renovation implements work year-round.

The horizontal crankshaft configuration adds performance life to the engine.

Robust, 21 cc design-matched hydrostatic transmissions (G2 = 900D 1.3L, G3 = 932) feature Coolant® hydromatic pump cooling systems and 7-micron absolute filters, partnered with wheel motors to create fully hydraulic systems for smooth responsive steering, less maintenance and 1,000-hour fluid change intervals.

Excellent weight distribution provides a smoother ride and lighter footprint. A standard hydraulic deck lift simplifies implement operation and transport.

5 Inch deep DuraMax® decks with an welded design for exceptional durability easily convert from wide pattern side discharge to optional mulching or vacuum collection. Or choose the 4-in-1 deck to add a rear discharge option that distributes clippings out back. A dedicated rear discharge deck is also available.

Change cutting height easily on the job with the flip of the PowerFold® switch. Use the same switch to electrically fold up the deck for storage and easy transport.

Deep-chromed Premium Comfort Seat embroidered with the Grasshopper logo and featuring CoolTemp Cordura® with lumbar support and coil-spring suspension keeps the operator comfortable in all-day comfort. Adjustable cup holders let you tote along your favorite beverage, while the 900D 1.3L features an electronic fuel gauge/hour meter on the console and two USB charging ports.

QuickAjust™ steering levers with “no tools” adjustment provide a 9-inch range for maximum comfort and fit.

Quickly attach a wide range of seasonal implements with the exclusive QuickConverter™ Implement System to save time and labor on all your jobs. Power units include standard wiring harness for the addition of electric-powered implements.

DON'T SETTLE FOR LESS THAN GENUINE OEM PARTS

Genuine Grasshopper replacement parts are machined to precise tolerances with the latest robotics and laser technologies. Our suppliers are held to the same rigorous standards.

MAXLIFE™ BELTS
Every MaxLife™ belt is designed to specific material, dimension, shape, construction, and pliability standards that ensure superior performance and long life. Simply finding an aftermarket belt of the same length won't deliver the same results.

COOLTEMP HYDRO-MAX™ TRANSMISSION FLUID
Designed to maximize the service life of critical transmission components and minimize fluid and filter change intervals, CoolTemp Hydro-Max™ fluid allows up to 1,000 hours between fluid changes and delivers maintenance costs as low as 7 cents per hour.

TIRED SEALANT
Premium twin fiber tire sealant for drive tires helps avoid leaks and flats from head punctures for the life of the tires.

ENGINE FILTERS
Dust is an engine’s worst enemy. Using anything other than a genuine OEM filter can allow dust to enter and cause premature wear — and potential engine failure.

DRIVE SYSTEM FILTERS
Grasshopper uses fine-particle filtration systems to extend the service life of your drive system. Most aftermarket filters are designed to capture only half of larger 10 to 40 micron particles.

WEATHER COVER
Weather-resistant, black Cordura® fabric cover with embroidered Grasshopper logo keeps seat and engine area protected during storage or between mowing. The cover slips over the ROPS and closes with Velcro to secure the opening.

ACCESSORIES ENHANCE PERFORMANCE
Ask your dealer about other accessories to maximize the performance of your Grasshopper.

SUNSHADE CANOPY
Diamondplated aluminum or heavy-duty vinyl Sunshade Canopy mounts on ROPS to limit operator exposure to direct sunlight and heat, reduce eye strain and increase operator comfort while providing plenty of headroom.

WORK LIGHTS
LED lights available as an option for all MidMount™ models and FrontMount™ models 623T, 721DT and 725KT. Standard on all other models.

FLAT-PROOF TIRES
Semi-pneumatic, flat-proof tires for MidMount™ front tires or FrontMount™ tail wheels are designed to never go flat.

FILTER MINDER
Alerts the operator when airflow is restricted in the air canister on dual-element air filters. Available on all models with heavy-duty, remanufactured, converters or cleaners. Standard on 400 and 900 Series model.

The right deck to fit your application. A wide range of deck sizes helps you tailor your Grasshopper True ZeroTurn™ mower to your needs. Whether you’re cutting in tight spaces or making the most of wide open ones, our decks can deliver a great cut right along with the speed and volume you’re looking for.

FIRST TO FINISH...BUILT TO LAST.®

Since the first Grasshopper rolled off the line in 1969, our goal has remained the same: to manufacture a mower that will produce a perfect cut day after day and retain its value as a re-sellable asset. Call it solid Midwestern values or just good business sense, but by employing a skilled workforce using smart engineering, design-matched components and cutting-edge manufacturing technology, we build long-lasting equipment that stands up to rigorous demands. At Grasshopper, there’s a constant pursuit of perfection. Perfection in the details. Perfection in the cut. It’s our passion, because it’s your passion, too.

Every mower is designed, engineered and assembled in Moundridge, Kansas, USA, and we run each one before it’s shipped as a final quality assurance check. This attention to detail has earned a 98.6 percent approval rating from Grasshopper owners, and reflects the company’s drive to be both innovative and responsive to our customers – turf care professionals, government entities and equipment owners from across America and around the world.

EXPERIENCE THE DIFFERENCE FOR YOURSELF.
