REIST INDUSTRIES
Innovation Working For You

PRODUCT CATALOG
Founded in 1947, Reist Industries is a leader in custom manufactured products including landscaping, equestrian, and snow removal equipment. Our company's state-of-the-art manufacturing facilities are located in Elmira, Ontario. Our technical design and engineering departments work toward creating new, innovative products in an ongoing pursuit to better serve the needs of our customers.

A dedicated staff has made Reist Industries the number one choice for job-shop repairs to agricultural, construction, industrial and transportation equipment, in our fully equipped fabricating and machine shop.

The Landscaper is perfect for golf course builders, commercial landscapers, public works departments, earthscaping, construction sites, or any project requiring grading and reconditioning of a soil or gravel surface. The Landscaper can be used to "finish" an entire site.
Landscaper (CAT I)

OPTIONS

Grass Seeder Attachment
- Quick attach two-pin mounting system
- Seed rate adjustment with indicator
- Manual or optional hydraulic-controlled seed opener
- Available widths and capacity: 48" (2.7 bushels), 60" (3.4 bushels), 72" (4.1 bushels), 84" (4.9 bushels), and 96" (5.6 bushels)

Ripper Attachment
- 1/2" thick x 2" wide bolt-on ripper teeth
- High-strength, stress-proof ripper bar
- Manual adjustment from 0 to 5" ripping depth
- Available widths: 60", 72", 84", and 96"

Ripper Cylinder
- Replaces manual ratchet jack to control ripper tooth depth hydraulically

Harrow Attachment
- Hardened 5/8" square teeth spaced at 2" removes trash on surface
- Mixes grass seed into soil with seeder attachment
- Manual adjustment from 0 to 4" deep
**Landscaper (CAT I)**

**OPTIONS**

**Harrow Cylinder**
- Replaces manual ratchet jack to control harrow tooth depth hydraulically

**Rear Brush Attachment**
- Brushed finish on walking trails
- Break-away wings to smooth out side ridges
- Adjustable brush depth with two top wind jacks
- Available widths: 48", 60", 72", 84", and 96"

**Smooth Roller Attachment**
- Smooth flat finish on soil, sand or synthetic equestrian footings
- Self-adjusting scraper bar
- Water can be added to roll

**6" Hitch Extensions**
LANDSCAPING

Landscaper (CATI)

OPTIONS

Hitch Adapter, Skid Steer (Pull Only)

Hitch Adapter, Hydraulic Tilting Skid Steer (Push and Pull)

Hitch Adapter, Skid Steer (Push and Pull)

Top Link Cylinder

- Top link grading control
- 8" stroke CATI
- 10" or 14" stroke CATII
- Ball ends
Landscaper (CAT I)

OPTIONS

Tiller Attachment
- P.T.O. driven, 540 R.P.M.
- Available widths: 60" and 72"
- Self-resetting cam clutch to protect drive

Board Scraper Attachment
Landscaper (CAT II)

**Specifications**
- CAT II Hitch
- 75-120 horsepower
- Serrated heat-treated grader blade
- Rear Pulverizing roller
- Adjustable side wear plates

96" Wide Heavy Duty, High Capacity
Landscaper (CAT II)

OPTIONS

Ripper Attachment
- 1/2" thick x 2" wide bolt-on ripper teeth
- High-strength stress-proof ripper bar
- Hydraulic adjustment from 0 to 5" ripping depth

Harrow Attachment
- Removes trash on surface
- Hydraulic adjustment from 0 to 4" deep
- Hardened 5/8" square teeth spaced at 2"

Rear Brush Attachment
- Brushed finish on walking trails
- Break-away wings to smooth out side ridges
- Adjustable brush depth with two top wind jacks
Reist AeraSeeders are specifically made for:

- Playing fields
- Golf courses
- Cemeteries
- Rental stores

The Reist Industries 24SP AeraSeeder provides simple, yet accurate initial and overseeding in those “hard to get at” places. At only 34” wide, with a seeding area of 24”, this mighty little machine will quickly overseed your golf greens and it can also fit through a backyard gate. The multi-spiked roller produces approximately 800 perforations per square yard, effectively saturating the top surface with a network of holes. This network, combined with our stainless steel seed apertures, brush, and smooth packing roller system, offer you the highest percentage of grass seed germination.

Features

- Multi-spiked roller
- Honda engine with Eaton Hydrostatic Drive
- Rear smooth packing roller
- Cam-adjusted seed gate
- User-friendly controls
- Seed calibration tray
- Gauge wheel kit, with quick release wheels
- Weight bracket

Specifications

- Weight: 400 lbs
- Dimensions: 48"L x 34"W x 40"H
- Capacity: 1.25 bushel seed box
- Engine: 5.5 H.P Honda gasoline engine
- Hydrostatic Drive: 0 to 5 mph
24" AeraSeeder

OPTIONS

Gauge Wheel Attachment
- 2" wide x 8" diameter solid rubber wheels
- Optional 4" wide UHMW plastic wheels
- Adjustable stop to control depth of penetration on front spike roller

Rear Spiked Roller Attachment
- Doubles up perforations to 1700 per square yard

Weight Bracket Attachment
- Holds up to six 45 pound weights

45-Pound Weight
48" AeraSeeder

Features

The Reist 3PH mounted or towable AeraSeeder is the tool for the discerning professional who demands quality in groundskeeping and ease of use for rental application.

• The AeraSeeder was designed with efficiency in mind. The internal agitator and bearing assembly deliver a smooth, constant seed flow.
• The seed rate is achieved through an innovative locking knob adjustment control, allowing for maximum seed-spread accuracy. The seed flow is turned on and off by a manual or hydraulic lever mechanism.

The tandem rollers oscillate 30 degrees on a pivot, allowing for consistent ground contact on rolling terrain. The rolls are mounted with 1½" diameter bearings for long trouble-free operation.

The cone-shaped spikes are 1½” in length. Due to their unique taper design the spikes do not lift the ground around the aeration hole. Instead they leave a constant pattern resulting in even seeding. The double-spiked rollers will leave over 1700 perforations per square yard.

Specifications

• 4 3/4 Bushel Capacity
• CAT I Hitch
• Overall width 51"
• Seeding width 44"
• 460 lbs.

Hydraulic Seed Side Shut Off
**48" AeraSeeder OPTIONS**

**Tow Cart**
- Manual ratchet jack to raise and lower AeraSeeder on cart
- Cart attaches quickly to three-point hitch mounts on AeraSeeder.

**Manual Seed Slide Shut-Off**

**Rear Spiked Roller Extension**
- Extends rear-spiked roller and brush back 7" for optimum ground contact and smoother operation
- Stand-on platform for easy loading of hopper
**LANDSCAPING**

**48" AeraSeeder**

**OPTIONS**

**Tool Bar — Two 48" AeraSeeders**
- CAT II Hitch
- Hydraulic control for seed slide opener

**Tool Bar — Three 48" AeraSeeders**
- CAT II Hitch
- Hydraulic control for seed slide opener
72" and 96" AeraSeeder

The Reist 3PH mounted AeraSeeder is the tool for the discerning professional who demands quality in groundskeeping and ease of use for rental application.

Features

- The tandem rollers oscillate 30 degrees on a pivot, allowing for consistent ground contact on rolling terrain. They are mounted with 1½" diameter bearings for long trouble-free operation.
- The cone-shaped spikes are 1½" in length. Due to their unique taper design, the spikes do not lift the ground around the aeration hole, but leave a constant pattern which results in even seeding. The double-spiked rollers will leave over 1700 perforations per square yard.

Specifications 72"
- Hitch: CAT I
- Overall width: 81"
- Seeding width: 72"
- Weight: 1185 lbs.
- Seed bin capacity: 12 bushels

Specifications 96"
- Hitch: CAT I
- Overall width: 105"
- Seeding width: 96"
- Weight: 1400 lbs.
- Seed bin capacity: 16 bushels

**In-Fielder D-60**

**A heavy duty, time-saving ball diamond groomer**

Operators without special training can operate the REIST In-Fielder and condition a hard, uneven baseball diamond into a smooth and level playing surface.

The In-Fielder is extremely simple to operate because it has only two adjustments: the cutting depth of the grader blade and the brush height adjustment.

**Features**
- Heavy duty bolt-on serrated grader blade
- Floating clod-breaking pulverizer roller
- Heavy duty floating leveling bar
- Packer roll and floating scraper
- Adjustable rear brush

**Specifications**
- Hitch: CAT I
- Width: 60"
- Weight: 620 lbs.
- Pulverizer roller: 5" Rod type roller
- Packer roller: 6" steel roller with floating scraper
In-Fielder D-60

OPTIONS

**Tow Kit with Wheels**
- Not recommended for highway use
- Optional electric/hydraulic power supply to raise and lower hitch and rear wheels

**Water Tank**
- 50 gallon capacity
- 12V pump and nozzle
- Optional hand wand kit

**Rear Long Tine Rake**
- 11" long x ¼" spring tines
- Loosen up hard-packed surfaces

**Rotary Sweeper**
- 20" diameter nylon bristle brush with spring-loaded break-away arm
- Hydraulic-driven
- Adjustable gauge wheel
In-Fielder D-72

A heavy duty, time-saving ball diamond groomer

Operators without special training can operate the Reist In-Fielder and condition a hard, uneven baseball diamond into a smooth and level playing surface.

The In-Fielder is extremely simple to operate because it has only two adjustments: the cutting depth of the grader blade and the brush height adjustment.

Features
- Heavy duty bolt-on serrated grader blade
- Floating clod-breaking pulverizer roller
- Heavy duty floating leveling bar
- Adjustable rear brush
- 6" diameter UHMW segmented packer roll (to reduce skidding and bunching)
- Adjustable rear brush
- Lubed pivots

Specifications
- Hitch: CAT I
- Width: 72"
- Weight: 675 lbs.
- Pulverizer roller: 5" diameter bar roller
- Packer roller: six sections of 6" diameter x 12" long solid UHMW material
**In-Fielder D-72**

**OPTIONS**

**Tow Kit with Wheels**
- Not recommended for highway use
- Optional electric/hydraulic power supply to raise and lower hitch and rear wheels

**Water Tank**
- 50 gallon capacity
- 12V pump and nozzle
- Optional hand wand Kit

**Rear Long Tine Harrow**
- 14" long x 3/8 spring tines
- Loosen up hard-packed surfaces

**Rotary Sweeper**
- 20" diameter nylon bristle brush with spring-loaded break-away arm
- Hydraulic-driven
- Adjustable gauge wheel
In-Fielder D-84

A heavy duty new generation ball diamond groomer

 Operators without special training can operate the Reist In-Fielder and condition a hard, uneven baseball diamond into a smooth and level playing surface. The In-Fielder D84 is extremely simple to operate because it has only one adjustment: the cutting depth of the grader blade.

Features

- Heavy duty bolt-on serrated grader blade
- Floating clod-breaking pulverizer roller

Specifications

- Heavy duty floating leveling bar
- 6” diameter UHMW segmented packer roll (to reduce skidding and bunching)
- Floating rear brush with side bumpers
- Broom and rake holders

- CAT I and CAT II Hitch
- Width: 84”
- Weight: 800 lbs.
- Pulverizer roller: 5" diameter bar roller
- Packer roller: seven sections of 6" diameter x 12” long solid UHMW material.
**In-Fielder D-84**

**OPTIONS**

**Water Tank**
- 50 gallon capacity
- 12V pump and nozzle
- Optional hand wand kit

**Rear Long Tine Harrow**
- 14" long x 3/8" spring tines
- Loosen up hard-packed surfaces
- Hydraulic cylinder to raise and lower harrow

**Rotary Sweeper**
- 20" diameter nylon bristle brush with spring-loaded break-away arm
- Hydraulic-driven
- Adjustable gauge wheel
RotoRake

The RotoRake’s (Hyd) bi-directional rotor allows for operation in both directions. Features a 25 degree angle and 28 degree tilt for easy swaling and ditching. Oscillating gauge wheels lock in level position for the (P.T.O.) three point hitch use. Dual-motor design delivers 40% more torque and eliminates outside bearings and chains.

The RotoRake also features a floating rotor design with road-grade mini carbide teeth, ditch cutters and side shields. The RotoRake can be used on a three point hitch or skid steer hitch systems.

Specifications

- Working widths of 48", 60", 72" or 84"
- Height: 30"
- Rotor Torque @ 2500 PSI: 550 ft-lbs
- Hyd GPM range: 20-30
- (P.T.O.) 540 RPM, CAT I and CAT II Hitch
- 3000 PSI maximum
- Rotor Speed: 300-600 RPM
**RotoRake**

**OPTIONS**

**Side Cutters**
- Pin on front or rear depending on desired direction of travel

**CAT I Hitch**

**Remote-Controlled Hydraulic Kit**
- Six function electric controls required: Rotor FWD/REV, Angle Left/Right, Tilt Up/Down
- Holding valves with cross line protection on angle and tilt cylinders
- Anti-cavitation protection on rotor motors
Multi-Packer

Heavy duty, multi-purpose 3PH mounted or towable roller for equestrian riding arenas, lawn rolling, and field packing.

Features
- Slots for optional ripper teeth
- Floating drum scraper
- 24" diameter steel drum
- Drum can be filled with water for increased compaction
- Storage stand
- Mounts for optional leveling blade
- CAT I and II Hitch

Specifications
- 36" wide: 560 lbs. (dry), 960 lbs. (with water)
- 48" wide: 610 lbs. (dry), 1190 lbs. (with water)
- 60" wide: 710 lbs. (dry), 1460 lbs. (with water)
- 72" wide: 815 lbs. (dry), 1765 lbs. (with water)
- 80" wide: 885 lbs. (dry), 1930 lbs. (with water)
- 96" wide: 1025 lbs. (dry), 2300 lbs. (with water)
Multi-Packer

OPTIONS

Ripper Teeth

Leveling Blade

Tow Hitch
LR30 Lawn Roller
Self-propelled walk-behind lawn roller

Features
• Operates forwards and reverse
• Easily move the unit by hand by putting the transmission into neutral and rolling the unit forwards or backwards manually, without starting the engine
• Powered by a 5.5 Horsepower Honda gasoline engine
• Eaton hydrostatic transmission. Power is delivered to the drum with a series sprockets, jack shaft, and chains

• Self-propelled, leaving no tire or tread marks
• Smaller roller in the rear stabilizes the unit and adds an extra amount of compaction
• The extra-large handle makes the unit easy to turn and move around, even on hills
• Add 400 lbs. of water to drum for extra compaction

Specifications
• Main drum: 30" wide x 24" diameter
• Overall dimensions: 35"W x 62"L x 45"H
• Weight: 480 lbs. (dry), 880 lbs. (with water)
• 3/16" heavy duty drum, smooth or traction
• Power unit protection package with lifting eye
**TrailPro**

Groom your trails faster with one machine, one operator, and one pass.

Reist TrailPro: The 3-in-1 heavy-duty implement for municipal trail maintenance. The Reist TrailPro is a unique trail-grooming implement that trims edges, reclaims gravel and levels your trails in one pass.

**Features**

• Unique edging disc (one on each side) removes grass and weeds from side of trail. Cuts down to the root ball. Disc reclaims gravel and stone dust that has built up along edge of trail and redistributes it across the trail, which eliminates the need for costly re-gravelling. Disc creates a clean, trimmed edge.

• Angled blades remove high spots and level the trail

• Spinning rotor pulverizes and separates root balls and stone dust

• Carbide-tipped teeth spin at 540 RPM, leaving no stone unturned

• Leveling plate made from ¾" wear resistant steel compacts the product, and leaves a smooth trail that can be used immediately by the public

**Specifications**

• Weight: 1,475 lbs.

• Hitch: CAT I

• Power: 540 P.T.O.

• Working width: 72"

• Dimensions: 78W x 67L x 34H
Rear Gauge Roller

- To pack down materials that cannot be drag-packed, such as wood chips and loose material
Drag Mat
Smooth out your stone dust, gravel, or topsoil surface with your pickup truck or UTV.

Features

- Rolls up behind your bumper to transport with unique crank, folding handle and lock system
- Fits onto any 2" trailer hitch receiver

Specifications

- Two working widths available: 66" or 84"
- 1" square galvanized mesh mat
EQUESTRIAN
RotoGroomer

The P.T.O.-driven RotoGroomer renovates and conditions conventional and synthetic footings with high wax and fiber materials in horse-riding arenas. It is the only solution on those footings when a conventional drag will bunch or plug up.

Features:

- Carbide toothed single direction drive rotor
- P.T.O. Driven 540 RPM with slip clutch protection
- 12" rear smooth packing roll with self-adjusting scraper
- Water can be added to rear packer roll for extra weight

EQUESTRIAN

Multi-Groomer

The Multi-Groomer renovates and conditions conventional and synthetic footings on horse-riding arenas and tracks. The unique design features heavy duty side rub rails. An aggressive double row of adjustable ripper teeth are offset and have a spacing of 4" as well as a working depth of up to 4". The rear 2 rows of spring tines are offset and the pitch and height can be adjusted with a manual ratchet rack or an optional hydraulic cylinder. The spring tines give an ultimate mixing effect of the surface. The rear bar roller pulverizes and packs to the desired density, and leaves an attractive patterned finish.
