Edney Distributing Company Inc. is a wholesale distributor of high quality equipment focusing on the following markets: agricultural, lawn and turf maintenance, forestry, and light industrial. For a complete listing of our products (including front end loaders, grain augers, rotary cutters, riding mowers, ATV & skid steer attachments, and snow blowers), reference our Products Catalog Index or search the Edney Products Catalog.

Comprised of more than 1,000 reputable retail equipment dealers, our dealer network is represented in South Dakota, North Dakota, Minnesota, Wisconsin, Iowa, Michigan, Illinois, and Montana. We are proud to supply our dealers with innovative attachments and specialized equipment from manufacturers around the world. Most of the manufacturers for whom we distribute products have been business partners with us for many years, some dating back to the 1950s. However, we are continually searching for new products to better help our dealers meet their customers’ needs.

Experienced Edney team members offer value-added services to dealers including product specifications and pricing, logistics, warranty support, and training. Our offices are linked together by state-of-the-art phone and computer systems. No matter where a team member is based, we are able to offer friendly, speedy, and accurate service.

Our Dealer Support Centers are located at:

- Fargo, North Dakota
  1230 43rd Street NW, Fargo, ND 58102

- Huron, South Dakota
  1895 Highway 14 East, P.O. Box 198, Huron, SD 57350

- Lakeville, Minnesota
  8485 215th Street W., Lakeville, MN 55044

- Portage, Wisconsin
  2571 W. Wisconsin St., Portage, WI 53901

In addition to rental equipment, Edney Distributing is a full service distributor of agricultural, light industrial, forestry and landscape equipment.
LAND MANAGEMENT

**WB44 WALK BEHIND STUMP GRINDER**

The WB44 Walk Behind Stump Grinder lets you get to the stumps quickly and easily. It is built for stump grinder rental in the rental stump grinding industry.

Very portable at less than 30 inches wide, this stump grinder can fit through most gates and between buildings, making it great at getting into hard-to-reach areas. Powered by a 13HP gas engine and featuring a centrifugal clutch, the 10-inch cutting head chews through stumps with 12 concave-shaped carbide-tipped green teeth. The WB44 portable stump grinder has 15-inch pneumatic tires to roll easily over the ground, getting the grinder into position without tearing up the turf. The wide-degree cutting arc allows you to grind stumps up to 20 inches in diameter with little repositioning. Integrated handles and lifting hooks make it easier for loading and unloading, and the folding handle makes it more compact for easier transport and storage.

**BRUSHFIRE MS348 FIXED-TOOTH MULCHER FOR SKID STEER**

Baumalight’s most lightweight fixed-tooth brush mulcher for skid steers. With adequate flow, the MS348 Brush Fire brush mulcher will efficiently cut heavy vegetation and light brush using Green Teeth. The concave-shaped carbide tip provides aggressive brush mulching action by chipping the brush bit by bit. Part of the secret of their performance is the ease of rotating the teeth so there is always a sharp edge to make mulching easier.

**SKIDSTEER STUMP GRINDER - S18**

The S18 skid steer stump grinder is designed ruggedly with simple operation in mind with no required electrical connection. The simple direct-flow hydraulic drive is designed to provide the best torque and RPM to the cutting head, as no flow is diverted to a swing cylinder. The S18 Baumalight stump grinder is offered with three motor options to best match your flow; be sure to check out the stump cutting times charts to see how fast you can grind stumps with the flow of your skidsteer. The unique positioning of the rotor allows the operator an excellent view of the grinding action, and the heavy-duty fixed deflector safely directs the flow of debris.
TX SERIES PTO GENERATORS

DESIGNED TO KEEP THE LIGHTS ON AND THE POWER GOING OR YOU AND YOUR FAMILY

With the Baumalight TX series of generators, power is as close by as your tractor. The portable TX generators are designed to back up small farms and estates like yours. Simple connections and controls provide quick and easy access to power when you need it. TX generators are suited to tractors from 10 hp to 50 hp and provide backup or remote power from 7 Kilowatts to 31 Kilowatts.

In-field breakdowns can happen anywhere and at the worst time. Paired with a portable welder, TX generators allow you to take power to where you need it, making them a perfect in-field repair partner.
ST324 FIXED COMPACT TREE SPADE
This fixed frame hydraulic tree spade gives you tree-moving power for your smaller skidsteers. The ST324 Small Fixed Compact tree spade features three blades to give you the digging and root ball compacting action necessary for cleaner and more viable transplants.

TN336 TRENCH AXE
The Baumalight Trench Axe is designed to carve a safe haven for your cables and lines. Buried cables and lines are hidden from sight and protected, Trench Axe helps you get them there. The Trench Axe quickly and efficiently carves trenches from 6” to 10” wide (depending on chain option) and up to 4 feet deep.

WALLENSTEIN

WX520
- Horizontal & Vertical* Log Splitter
- 160 CC Honda GX Engine
- 20-Ton Splitting Force
- 24” Splitting Length
- 2” Ball Hitch
- 28” Bed Height (520T only)

WX520T

WX540
- Vertical splitting on WX540 only

FIREBOLT WXR740-L
- 27-Ton Splitting Force
- 11-Second Full Cycle
- 2-Stage Regenerative Valve
- Honda GX200 196 CC Engine
- 24” Stroke, 4.5” Cylinder
- Factory Installed Light Kit
- Horizontal & Vertical Splitting
The self feeding chipper automatically pulls in limbs and branches up to 5” (BX52S) or 7” (BX72S) in diameter. Chipping action is powered directly from your tractor’s PTO. Easily fold up the hopper for compact transportation.

The Wallenstein BXTR6438F is a commercial brush chipper with a big appetite, but never bites off more than it can chew. That’s because the BXTR6438F features the newest innovations in contractor and rental-grade chippers that keep you productive. With more standard features, engineering that maximizes power and easy operator controls, the Wallenstein BXTR6438F makes a meal out of almost anything.
**FOD-16 FLIP OVER DISC**
The FOD-16 is an ideal pull-type implement for garden tractors and ATVs. Some of the FOD-16 features are:
- Great for tilling gardens, orchards, or field game plots.
- Disc flips over for easy transport across lawns, driveways, or other areas not to be disked.
- Eight 16” notched disc blades for positive trash cutting and soil penetration.
- Disc gangs are at 20° angle for optimum cutting.
- Rear tab for drag harrow attachment.
- Optional weight kit available.

**FOC-48A FLIP OVER CULTI-PACKER**
- HP Requirement (minimum) 18HP or 350cc
- Construction welded steel
- Operation width: 50”
- Tire size 4” x 12” pneumatic
- Culti-Packer wheels (22) cast iron
- Shipping weight 274 lbs.
- Product computer number 940935

**SSGB-8B SKID STEER GRADER BLADE**
The patented SSGB-8B Grader is designed to be used by asphalt, landscaping, and concrete flatwork contractors. The unit has an 8-foot, six-way hydraulically controlled moldboard operated by an in-cab remote.
SSMB ROTARY BROOMS
FEATURES:

• Performance driven rotary brooms for use by contractors, municipalities, institutions, and farmers.
• Remove dirt, sand, gravel and trash from construction entrances, parking lots, bridges, driveways and sidewalks.
• Remove thatch and prepare turf for the growing season.
• Clean snow or leaves from streets, driveways, and building entrances.
• Excellent for general clean up before sealing or repairing pavement.

Includes hydraulic & electrical kit

SSMB-325P 60”
SSMB-326P 72”

LANDSCAPE RAKES

20 SERIES POWERED LANDSCAPE RAKES

Responsive and reliable, the 20-Series is designed for Skid Steers up to 65 HP. Features a #80 chain drive, dual flip-up gauge wheels, flip-up side shields and an all-welded frame constructed of 3” x 4” x 1/4” tubing. Also standard are reliable gauge wheels (16 x 6.50-8) mounted to 4-bolt hubs and a “Flex & Float” System offering the operator flexibility to choose maximum down pressure or float position for site prep.

PSS-620 72”
PSS-720 84”
PSS-620-ST 72”
PSS-720-ST 84”
**S75 MEGA MIXER**

Eliminate backbreaking labor with the Danuser Mega Mixer! From concrete to livestock feed, scoop, mix, and dispense a wide variety of materials with ease.

With adjustable mounting brackets and pallet fork tine slots on both sides, conveniently dispense left or right. Built-in cutting edges and a robust design make it well-suited for scooping from piles. Comes standard with dual safety grates including integrated bag busters, which can be opened individually from either side.

**HAMMER**

Drives fence posts, sign posts, guard rails, median dividers, tent stakes, t-posts, pipe fence, and railroad ties with ease. Model SM40 has a 40” drop hammer design. With this innovative design, you can achieve a full stroke with every cycle or utilize the short stroke feature to fine tune your depth. The Hammer DOES NOT operate with springs, hydraulic cylinder, or return line. Grapple option can be added to any model for a true one-person operation (does not include t-posts). The grapple option will allow the operator to grab the post off the ground, load it into the machine, and drive it in the ground without leaving the skid-steer seat. Tilt option allows up to 20° in each direction. The hammer weight is 300 lbs. from the factory. Additional weight can be added for a total of 500 lbs.

**RELATED PRODUCTS**

- 12085 Multi-Purpose Grapple
- 12017 Skid Steer Pallet Fork
- 12059 5500 lbs. Forks
ATTACHMENTS

INTIMIDATOR

A true land-clearing, obstacle-removing attachment for your skid-steer or tractor, the Intimidator is ideal for eliminating trees, saplings, shrubs, bushes, and other obstructions on the job site or farm. The unmatched versatility of the Intimidator handles the toughest stumps, posts, rocks, fence rows, and land-clearing jobs. Selectively eliminate what you want. Maneuver into tight locations and next to buildings or fences with ease. Remove the complete tree or stump, roots and all. Remove larger trees, even with smaller skid-steers or tractors, using the replaceable excavator bucket teeth and vertical jaw saw teeth to dig and cut roots.

T3 DRIVER

The T3 Post Driver is a small driver that delivers big time results! The T3 Driver will drive T-posts up to a 3” O.D. (outside diameter) pipe at a rate of up to six strikes per second. The top of the post is fully contained to prevent kick out and protected from damage by the strike plate. Use your tractor, skid-steer, mini-ex, loader, or backhoe to carry the weight of the driver. We offer several mounting options, including an offset skid-steer quick attach, which allows the operator to drive parallel to the fence line, a bolt-on/weld-on bracket that mounts to almost any flat surface, and a tilt bracket for up to 20° adjustments left or right. Use down pressure from the host vehicle to drive more posts in the ground faster. The T3 Driver includes one bolt-on/weld-on bracket, hoses and flat face ISO couplers for simple plug and play operation. This is an ideal post driver for most farmers, ranchers, fencing contractors, and rental yards.

INCLUDED WITH T3 DRIVER:

21305 T3 Driver Skid-Steer Quick Attach Mount
ROLLER COMPACTORS

SC SERIES COMPACTOR ROLLERS
The SC SERIES COMPACTOR is built with a solid steel axle running the entire length of the cylinder. Water can be added through a 1” diameter fill plug to increase the working weight of the compactor. These units are well-built and powder coat painted for a long-lasting finish.

- Quick Hitch compatible (3-point models)
- 16” and 20” diameter rollers
- 1/4” wall pipe thickness
- 60”, 72” available with Cat. 1, 3-pt. hitch
- Solid continuous length roller axle
- 1-7/16” pillow block bearings
- 1” diameter water filling plug

**KODIAK ROTARY CUTTERS**

Kodiak’s standard rotary cutters are designed to last and built to perform years of service. Every cutter deck is primed before applying high-gloss paint for a lasting finish.

Features:
- Three-point mount with reliable breakaway
- 90 HP gearbox
- 5/8” solid stump jumper
- Fully welded deck
- Laminated tail wheels
- Front and rear chain guards available
- 3 Point lift or pull-type mounting options available
- CAT I Quick-hitch compatible

BATTERY OPERATED TOOLS

82V GH 260 BRUSHLESS HEDGE TRIMMER
- Up to 90 minutes of runtime with fully charged 2.5Ah battery
- Equivalent to 25cc gas engine
- Brushless motor for more torque, longer runtime, quiet operation, and longer life
- Innovative 180 rotating rear handle provides easy trimming at multiple angles
- 3/4” cutting width allows for easy cutting through thick hedges
- Jam release feature reverses blade travel to free a jam with the push of a button
- Kit includes GL400 battery and GC400 charger

GS180 82V 18-INCH CHAINSAW KIT
- 150+ cuts (4x4 pressure treated lumber) with a fully charged 2.5AH battery
- Brushless motor delivers more torque and longer life for your investment
- 50% less noise than gas protects your hearing and allows earlier job starts without disrupting clients
- 3x less vibrations compared to gas-powered chainsaws
- Kit includes GL250 battery and GC400 charger

GM 210 82V 21-INCH LAWN MOWER KIT
- High-efficiency brushless motor engineered to provide more power, torque, quiet operation, and longer motor life.
- 21” steel deck with 3-in-1 design for mulch, side discharge, or rear bag capability
- High-efficiency brushless motor maximizes runtime and extends motor life
- Vertical storage saves up to 70% storage space on your trailer or truck
- Push start engine provides quick, effortless startups and eliminates the hassle of pull-cord starts
- Kit includes GL500 battery and GC400 charger
BATTERY OPERATED TOOLS

**82V GT160 BRUSHLESS STRING TRIMMER KIT**
- Digital controlled brushless motors for more torque, longer run-time, quiet operation, and longer life
- Trimmer has 16” cut path with a .080” dual-line bump feed head that rips through your yard
- Trimmer has front mount design with aluminum straight shaft provides balance and ergonomics
- Trimmer has variable speed trigger for precise control over cutting power
- Kit includes GL250 battery and GC400 charger

**82V GB500 HANDHELD BLOWER KIT**
- Digital controlled brushless motors for more torque, longer run-time, quiet operation, and longer life
- Blower delivers 500 CFM to move dry/wet leaves and debris in a breeze
- Blower has 3-speed selection with a variable speed trigger
- Kit includes GL250 battery and GC400 charger

**EPW2000 PRESSURE WASHER**
- 13 Amp Universal Motor with AC corded power to deliver consistent reliability.
- 2000 PSI, 1.2 Gallons per minute,
- Onboard soap tank and variety of nozzles give versatility to clean multiple surfaces.
- 25’ Uber Flex hose, 34.3 lbs., 35’ power cord with GFCI

WALK BEHIND LAWN ROLLER

LR30 LAWN ROLLER
Self-propelled walk-behind lawn roller

Features:
- Operates forwards and reverse
- Easily move the unit by hand by putting the transmission into neutral and rolling the unit forwards or backwards manually, without starting the engine
- Powered by a 5.5 Horsepower Honda gasoline engine
- Eaton hydrostatic transmission. Power is delivered to the drum with a series sprockets, jack shaft, and chains
- Self-propelled, leaving no tire or tread marks
- Smaller roller in the rear stabilizes the unit and adds an extra amount of compaction
- The extra-large handle makes the unit easy to turn and move around, even on hills
- Add 400 lbs. of water to drum for extra compaction

Specifications:
- Main drum: 30” wide x 24” diameter
- Overall dimensions: 35”W x 62”L x 45”H
- Weight: 480 lbs. (dry), 880 lbs. (with water)
- 3/16” heavy duty drum, smooth or traction
- Power unit protection package with lifting eye
SEEDERS & LANDSCAPING

24” AERASEEDER

Reist AeraSeeders are specifically made for:
• Playing fields
• Golf courses
• Cemeteries
• Rental stores

Features:
• Multi-spiked roller
• Honda engine with Eaton Hydrostatic Drive
• Rear smooth packing roller
• Cam-adjusted seed gate
• User-friendly controls
• Seed calibration tray
• Gauge wheel kit, with quick release wheels
• Weight bracket

Specifications:
• Weight: 400 lbs
• Dimensions: 48”L x 34”W x 40”H
• Capacity: 1.25 bushel seed box
• Engine: 5.5 HP Honda gasoline engine
• Hydrostatic Drive: 0 to 5 mph

LANDSCAPER (CAT I)

The Reist Landscaper does the work of a clodbreaker/pulverizer, harrow, box grader, ripper and grass seeder. The Landscaper is perfect for golf course builders, commercial landscapers, public works departments, earthscaping, construction sites, or any project requiring grading and reconditioning of a soil or gravel surface. The Landscaper can be used to “finish” an entire site.

ROTORAKE

The RotoRake’s (Hyd) bi-directional rotor allows for operation in both directions. Features a 25 degree angle and 28 degree tilt for easy swaling and ditching. Oscillating gauge wheels lock in level position for the (P.T.O.) three point hitch use. Dual-motor design delivers 40% more torque and eliminates outside bearings and chains. The RotoRake also features a floating rotor design with road-grade mini carbide teeth, ditch cutters and side shields. The RotoRake can be used on a three point hitch or skid steer hitch systems.

Specifications:
• Working widths of 48”, 60”, 72” or 84”
• Height: 30”
• Rotor Torque @ 2500 PSI: 550 ft-lbs
• Hyd GPM range: 20-30
• (P.T.O.) 540 RPM, CAT I and CAT II Hitch
• 3000 PSI maximum
• Rotor Speed: 300-600 RPM
Kasco’s Plotters’ Choice is the most versatile food plot planter on the market. A true drill for row crops, and a seeder for grasses. Kasco’s long history of producing quality agricultural implements shows in the Plotters’ Choice construction, design, operation, and value.

SEEDERS

The Ground-Breaker is a 3-in-1 food plot implement. It has a set of adjustable cutting discs on the front followed by a seed hopper that spreads any seed from corn to clover with an industry leading calibration system that has unequaled accuracy and simplification. This is followed by a culti-pack roller, which smooths out the soil and gives you a good seed to soil contact. Obviously this isn’t a Genesis No-Till, but if you prefer to turn the soil or if you don’t want plant in rows this is your machine. It would be perfect for clover, brassicas, native grasses, cover crops and more. The Ground-Breaker 3 is a 3’ model with an optional tow kit for UTV’s.

GENESIS 3

- Working Width: 38”
- Working Depth: 0 - 2.5”
- Seeding Speed: Up to 7.5 mph
- Weight: 1,000 lbs
- Seeding Row Distance: 7.5”
- Cutting Elements: 5
- Seed-Tray Capacity: 4.8 Bushels
- Hitch Type: Clevis Hitch Three-point Cat 1-2
- Maximum Capacity: 2.8 Acres per hour
- Dimensions LxWxH: 44”x55”x52”
- Recommended Tractor Size: Min. 800cc ATV/UTV 30HP Tractor
- Standard Parts:
  - 5 Gear sets for adjusting the coarse seeding density.
  - Integrated seed spreading tray.
  - Seed hopper with sight-glass.
  - Acre seeding gauge.
  - Soil following seeding wheel.
  - Independent cutting elements following the soil.
  - Seed slit closing wheels.
  - Adjustment legs for storage.

GROUNDBREAKER 3

- Weight w/ wheel kit: 1,015lbs
- Width: 3 ft
- Number of disc: 6

The Ground-Breaker is a 3-in-1 food plot implement. It has a set of adjustable cutting discs on the front followed by a seed hopper that spreads any seed from corn to clover with an industry leading calibration system that has unequaled accuracy and simplification. This is followed by a culti-pack roller, which smooths out the soil and gives you a good seed to soil contact. Obviously this isn’t a Genesis No-Till, but if you prefer to turn the soil or if you don’t want plant in rows this is your machine. It would be perfect for clover, brassicas, native grasses, cover crops and more. The Ground-Breaker 3 is a 3’ model with an optional tow kit for UTV’s.
**Light Duty Pallet Fork C/W 42" Tines**
- 1 3/16" x 3 1/2" Class II hook type fork lift tines
- 1,200 lbs capacity at 24" L.C.
- Tines can be locked in any position
- 50" wide carriage
- 315 lbs

**2,000 lb Pallet Fork C/W Guard 42" Tines**
