EP
HEAVY DUTY AUGER SERIES

Lifetime Warranty Covering Output Pull Out

Innovative planetary design with fewer internal components that are completely sealed and running in oil

Forged planetary housing and output with tapered roller bearings

Compact housing design and hoses routed out the top allow you to dig deeper and in tighter locations

Utility-style housing with integrated ears for added strength

3-year warranty on drive unit

NOTE: We recommend the 9” Wobble Auger be used on a skid-steer with an Operating Load or Rated Operating Capacity of 2250 lbs. or greater, utilizing an auger drive with 2000 ft. lbs. of torque or greater.

Patent: www.danuser.com/patents

NOTE: As with all rock augers, performance depends upon down force and torque applied to the auger.
Established in 1910, DANUSER has been family owned and operated by four generations. We have manufactured auger systems since 1943. With over 70 years of design and manufacturing experience, our machines have dug millions of holes. Today our commitment to our customer remains to design and build products that are the benchmark of quality, reliability, and longevity. In the words of our founder K.B. Danuser, “Good enough won’t do – it must be right.”

DANUSER manufactures several attachments for various equipment, serving several industries worldwide. Please visit www.danuser.com to see our full line of attachments.

Danuser reserves the right to make changes in design, specifications, and prices without notice and without incurring any obligation relating to such changes.
