The new Python Wire Unroller easily unrolls new and Python-rolled spools of barbed and smooth wire for faster fencing.

**KEY FEATURES:**

- Connects to a 2" receiver hitch
- Optimal clearance for open tailgates
- Controlled spinning to prevent backlash
- Angled frame design gives the Python Unwinder an additional 9½ inches of ground clearance
- Built-in wire tensioner cleats for stretching and holding wire
- Features convenient rebar and T-post straightener for fencing repair
