The **Implement Caddy** by MK Martin converts your 3PH implements to trailed versions when access to a 3PH equipped unit is not available. This alternative to conventional 3PH mounting allows greater flexibility over your work force.

**Features**
- 12,000 LBS. capacity
- 3PH Mount CAT. 2 or 3 implements
- Hydraulically raise and lower caddy to desired height

**Optional Equipment**
- Clevis Hitch
- Tank Mounts
- Weight Box
- 750 GAL. Tank
- Tie Down Strap Kit
